**To:** \_\_\_\_\_

**From:** Sergeant Sharon Gage

**Effective Dates:** 07/28/08 – 05/29/09

**Subject: Memorandum of Understanding - Temporary School Resource Officer**

The Tempe Police Department has elected to employ a **Temporary Police Officer** to function as a **School Resource Officer** in the **Juvenile Unit** of the Criminal Investigations Bureau. You have been selected to fill this position. This memorandum outlines the terms and responsibilities of your assignment.

**Duration of Employment:**

In accordance with the provision of the City of Tempe Personnel Rules Rule 1.104, the duration of this position will be ten (10) months beginning on July 28th, 2008 and ending May 29th, 2009, contingent upon satisfactory performance and continued grant funding. You may be eligible for rehire at the conclusion of the term of this Memorandum of Understanding, but may be required to re-apply for this position at that time. Should it be required, the application and rehire process will be in accordance with the personnel rules and procedures in place at that time. In either event, if you are rehired a new Memorandum of Understanding must be executed.

**Assignment:**

You will be assigned to the Juvenile Unit, in the Criminal Investigations Bureau. Your cost center will be 2212, unless otherwise assigned.

**Job Responsibilities:**

You will function as a **temporary** Tempe Police employee and will be subject to all of the policies, procedures, rules and regulations applicable to employees in the police officer job classification. In the event of a conflict between the rules and regulations applicable to employees in the police officer classification, this Memorandum of Understanding shall apply to the conflicting issue. Additionally, you must remain current in required training and maintain an acceptable level of job performance.

**Scope of duties:**

You will perform the following types of duties. The duties will be performed with the degree of care and professionalism that is expected of a Tempe Police Officer under similar circumstances. This is not an exhaustive list of responsibilities.

- Provide a law enforcement presence and response on campus
- Take enforcement action as needed and/or required
- Provide required hours of Law Related Education as per The School Safety Program
- Conduct investigations involving juvenile offenders
- Conduct investigations as assigned
- Assist field officers in juvenile cases and maintaining liaison with other agencies and organizations involved in juvenile matters
- Provide a visible deterrence to crime while presenting a positive impression of a law enforcement officer
- Act as a resource with respect to delinquency prevention
- Provide guidance on ethical issues in one on one and in classroom settings
- Establish liaison with school administrators, staff, students and parents
- In a law enforcement capacity participate in campus activities, student organizations, and athletic events when feasible and/or as directed by your immediate supervisor or designee
- Maintain tracking and/or logging system of statistical information as required by your supervisor
- Attend and provide testimony in court and related proceedings
- Successfully complete training to maintain Arizona POST certification and other departmental mandated training
- Successfully complete training to maintain compliance with Arizona School Safety Grant requirements
- Other law enforcement related duties as assigned by immediate supervisor or designee

**Supervisor:**

Unless otherwise assigned, your supervisor will be the sergeant over the juvenile unit, which is currently Sergeant Sharon Gage.

**Attendance:**

It is critical that officers assigned to specific schools be available for events that may occur on their campuses. This is especially important for those schools that have obtained grant funding for the positions. With that in mind, it is expected that when school is in session, you will be at work. As you become aware of events where this is not possible, your immediate supervisor or designee must be notified. Generally

speaking on days when school is not in session, you will not be working. Exceptions to this may be made by your supervisor.

**Compensation:**

During the duration of this Memorandum of Understanding your rate of pay will be equivalent to the top of the Police Officer Pay (Job Code 3200) Range (27A) currently \$35.096 per hour. This will adjust in accordance with the most current topped out rate of pay negotiated with the Tempe Officers Association M.O.U, as well as any market adjustments performed by the City of Tempe. As a temporary employee, normal vacation, sick and holiday leave, and premium pay for hours worked during the evening or nighttime hours and/or holidays do not accrue or apply.

You will be compensated for time worked. Your normal regular hours will be five (5) consecutive shifts of eight (8) hours in a seven (7) calendar day workweek. These five (5) consecutive shifts will be preceded and followed by two (2) non-work days. The eight (8) duty hours per shift shall be consecutive. Any additional time worked beyond the eight (8) hour shift will be compensated with compensatory time. Those who perform work in excess of their regular work schedules within their work period shall be compensated in time at the rate of one and one-half (1.5) times the amount of actual excess time worked. Any time worked over your (8) hour shift must receive prior approval from a Criminal Investigations Supervisor. Any deviation from this must be approved by your immediate supervisor. No "over-time", additional salary, will be paid unless approved and coordinated through the Tempe Police Off-Duty Work Coordinator.

Your compensatory time can be used to cover voids, in time worked, created by illness, school breaks, and/or vacations. At no time will you accrue and hold more than 85 hours of compensatory time. Compensatory time cannot be used to receive monetary compensation. You are strongly encouraged to plan and take any personal time off in conjunction with the planned breaks of the school to which you are assigned. **All compensatory time should be used prior to the end of the contract year. No cash payment will be made for any unused compensatory time.**

**Overtime Calculations:** All overtime will be calculated and compensated in compensatory time. All calculations will be made to the nearest quarter of an hour, in accordance with federal labor laws. For example, if an employee worked eight (8) minutes overtime, it would be rounded to the nearest quarter of an hour, and the employee would be compensated for fifteen (15) minutes overtime. Time under eight (8) minutes is considered de minimus (minor or trivial) and is not subject to overtime compensation.

**Stipend:**

In addition to base salary, you are eligible to receive a \$500.00 a month stipend to cover costs associated with health care and other similar needs. This stipend does not constitute eligibility for, or enrollment in, any City of Tempe provided benefits programs.

**Work Hours:**

Your work schedule will be set by your supervisor to meet the needs of the School Resource Officer Program and the Juvenile Unit and may vary. You will be scheduled to work no more than 40 hours each week on a regular basis. Any work beyond 40 hours per week must be approved in advance by your supervisor.

**Uniform Requirements:**

In order to be a more effective visible criminal deterrent on campus to both students, parents and visitors on campus, this position will require you to be in a full uniform the first two weeks and the last two weeks of school. Thereafter you will be required to wear your uniform four out of the five consecutive days worked. You may choose which day you wear business attire. You will be required to wear a Class B or C uniform during this time, and while working at special events. The Tempe Police Department will provide you with the necessary equipment and uniforms for this purpose. Any deviations of this requirement must be approved by your immediate supervisor.

While wearing business attire you must wear an authorized duty weapon, your badge, handcuffs, police radio, and a less lethal alternative, such as mace or taser.

All equipment provided to you remains the property of the Tempe Police Department.

**Vehicle usage:**

You will have a vehicle available for your use while at work. This vehicle will not be a "take home" vehicle. Limited exceptions to this may occur with supervisor approval.

**Off Duty Employment:**

Based upon the Department's need you are not approved to work off-duty employment.

1. If an unusual circumstance arises or a department need dictates you may sign-up for an off-duty job, however it must be approved by the CIB Lieutenant as an exception to this rule.
2. If your school is having a scheduled event requiring off-duty or they have asked you to work an event prior to you signing up for an off-duty job indicated above; your primary obligation is to the school. If there is any conflict, approval to work the off-duty must be approved through your supervisor.

Outside employment (including coaching) must be approved through the chain of command as established in General Order 11.102.

**Temporary Employee Status:**

**This position is a temporary, "employment-at-will" position with the City of Tempe.** Temporary positions are unclassified and are exempt from the Merit System. There are no fringe benefits provided, apart from what is described in the compensation portion of this memorandum of understanding. As a temporary employee your employment may be terminated at any time without cause or notice.

As a temporary employee of the City of Tempe you will work for an Arizona State Retirement System (ASRS) employer. If you work for a total of 20 or more hours per week you will be required to contribute a percentage of your pay to the ASRS.

Although your initial position will be as a School Resource Officer within the Juvenile Unit this may change based upon the needs of the department.

You may resign from this position with written notice given at least 14 days prior to the effective date of your anticipated resignation.

**AGREEMENT OF UNDERSTANDING**

I hereby affirm that I am aware that my position as a Temporary School Resource Officer is funded in whole or in part through a grant available to the City of Tempe and/or a Contract with a School District and that my continued employment is not guaranteed should the grant become eliminated, or the contract with a school district be voided, regardless of my employment status and without regard to seniority. As such, I will not be entitled to the provisions of the City Personnel Rules and Regulations or the Tempe Police Officers Association Memorandum of Understanding relating to lay-off.

## INTRODUCTION

The School Safety Program was established by ARS 15-154 in 1994 for the purpose of placing School Resource Officers (SRO) and Juvenile Probation Officers (JPO) on school grounds to contribute to safe school environments that are conducive to teaching and learning. Through comprehensive prevention and intervention approaches, School Safety Program funded officers maintain a visible presence on campus; deter delinquent and violent behaviors; serve as an available resource to the school community; and provide students and staff with Law-Related Education instruction and training. Officers develop positive interactive relationships with the students, the staff, and the community that they serve. This proactive, prevention-based program is cultivated through collaborative working partnerships between officers, school administration, teachers, and police and juvenile probation departments.

The Arizona Department of Education is pleased to provide the *School Safety Program Guidance Manual*. The manual is intended for use by all those involved in the program. It was developed through the efforts of the Working Group, a subcommittee of the School Safety Oversight Committee. Members represented rural and urban stakeholders in the program: site administrators, school resource officers, juvenile probation officers, law-enforcement agencies, juvenile probation departments, the School Safety Oversight Committee, the Arizona Department of Education, and the Arizona Foundation for Legal Services and Education. The Working Group mission:

***Through applied experience and expertise, the School Safety Program Working Group will identify and recommend policies and procedures to foster positive working relationships and safer school environments.***

The *School Safety Program Guidance Manual* is intended to provide information on the intent of the grant, the responsibilities of all parties, requirements for grant compliance, assistance with administrative issues, and the elements of an effective School Safety Program.

For clarification on issues, or to provide feedback on the content, contact the School Safety Program Administrator at (602) 542-8728. The guidance manual is a living document that will go through change as needed to meet the needs of the program. The Working Group will continue to meet to revise the manual as needed; therefore comments from those using the manual are appreciated.

The School Safety Oversight Committee wishes to express its appreciation for the time and effort of those who serve on the Working Group.

**SCHOOL SAFETY PROGRAM  
GOALS AND OBJECTIVES**

**Goal 1 The School Safety Program contributes to an orderly, purposeful atmosphere, which promotes the feeling of safety conducive to teaching and learning.**

Objective 1: Staff feels that the school is safe, and administration supports and monitors the consistency of actions/strategies/policies that will improve or maintain that feeling of safety.

Objective 2: Students feel that the school is safe. They feel free from the threat of physical harm and verbal abuse. They feel they have an adult to go to with their safety concerns, and they feel their concerns are taken seriously and addressed.

Objective 3: Staff and students have a positive view of the SRO/JPO.

**Goal 2 To teach Law-Related Education that promotes a safe, orderly environment, and good citizenship.**

Objective 1: The School Safety Oversight Committee ensures the continuous review and provision of instructional materials that promote a safe, orderly environment, and good citizenship.

Objective 2: Officers conduct 180 hours of Law-Related Education instruction per year.

Objective 3: Officers annually attend an Oversight Committee approved Law-Related Education academy/class to enhance their classroom skills and knowledge of appropriate LRE lessons.

## SCHOOL SAFETY PROGRAM OVERVIEW

This page consists of fundamental points and expectations that need to be understood by all parties involved in the School Safety Program. This overview is not all-inclusive; therefore, the entire manual should be reviewed. Disputes between schools and agencies often arise because the intent of the grant is either not understood or not followed. Non-compliance can result in loss of funding.

- Applications are submitted on-line through the grants management section of the Arizona Department of Education web site. The application due date, established in A.R.S. 15-154, is April 15<sup>th</sup> each year. Late applications are not accepted.
- A Service Agreement between the school and the police or juvenile probation department must be developed.
- The school administrator must establish a multidisciplinary School Safety Assessment and Prevention Team, comprised of the principal, officer, and school prevention/behavior specialist, and meets quarterly to conduct school needs assessment and develop prevention programming.
- The officer must be present and accessible on the school campus that they are assigned to *by the grant*. The grant pays the salary of a 10, 11, or 12 month, full-time position, at 40 hours per week. Absent an emergency, the SRO/JPO shall not be called away from their designated school. If the officer is called away for police or juvenile probation business (not including mandatory training, meetings, or crisis), the district shall not be invoiced for that time.
- The officer must be willing to teach, have positive interactions with students, and serve as an active member of the school community.
- Each officer must complete 180 hours of (LRE) instruction per year. The development and implementation of LRE must be based on a needs assessment. The 180 hour LRE instruction requirement must include:
  - At least 80 hours of LRE classroom instruction to ongoing cohort groups of students
    - Three to five classrooms, six sessions per classroom within one quarter to the same group of students
  - At least 100 hours of universal LRE instruction
    - 60 hours or more of universal LRE classroom instruction
    - Up to 20 hours for LRE planning and preparation
    - Up to 20 hours for LRE instruction to school staff and school community
- A teacher must be present in the classroom, at all times, while the officer implements LRE classroom instruction. LRE best practices suggest that the teacher and the officer co-present.
- The officer is required to attend annual training provided for by the Arizona Department of Education
- The school principal and agency supervisor must attend the School Safety Program administrator training on an annual basis. This requirement applies specifically to the principal when a principal is new to the grant or new to a school with the grant. After

attending the training once, the principal may send a designee to the training in subsequent years provided the designee is integrally involved with the grant.

- The district administrator must attend a School Safety Program Administrator Training
- The officer must keep a weekly activity log that tracks LRE instruction hours, teacher and subject, the topic of each LRE lesson, and the time the officer is off their assigned campus during their duty hours, regardless of the reason. Refer to requirements on page 19.
- The agency supervisor and school administrator must support, oversee, and review the officer activity log to ensure fulfillment of grant requirements.
- The school administrator must complete an officer performance assessment twice a year. The assessment must be shared with the officer's supervisor. Refer to sample form on page 30.
- The agency supervisor and school administrator are responsible for ensuring the officer is able to meet all grant requirements.
- The agency supervisor and school administrator shall meet formally at least once per semester.
- The school administrator, not the officer, is responsible school discipline.
- Additional activities shall not overwhelm the officer, jeopardize their ability to meet the minimum requirements of this grant (e.g. excessive law enforcement/probation activity), or go against the intent of this program (e.g. disciplinarian, detention monitor, lunch duty, fill-in for teacher)
- This grant does not provide funding for overtime.

## EDUCATION STAFF ROLE IN THE SCHOOL SAFETY PROGRAM

### School Level

- Supports and communicates the School Safety Program philosophy to all staff, students and parents on their campus.
- Meets with the officer before the first day of duty to review the Service Agreement, school operational procedures and specifics of the program on campus.
- Introduces the officer to staff and students and integrates officer into the school community.
- The school administrator must establish a multidisciplinary School Safety Assessment and Prevention Team, comprised of the principal, officer, and school prevention/behavior specialist, and meets quarterly to conduct school needs assessment and develop prevention programming.
- Utilizes needs assessment data to design clear and appropriate strategies and activities to support a successful School Safety Program to include:
  - Use of law enforcement or juvenile probation expertise and resources, including *strategic placement* of officer, for intervention and prevention of potential crime.
  - Use of LRE instruction to students, staff, and the school community. Refer to page 15.
- Facilitates collaboration and communication between officer and other school personnel on school-wide safety strategies such as staff trainings, emergency

response planning, needs assessment, Safe and Drug Free Schools (Title IV) programming.

- Provides time at regular staff meetings and trainings for the officer to deliver LRE instruction relevant to school-wide prevention safety related updates.
- Promotes the integration of law-related education into the classrooms and directs staff development of teachers and officer involved in the delivery of LRE.
- Ensures a teacher is present in the classroom at all times during LRE instruction.
- Develops and monitors implementation of the School Safety Program Operational Plan and meets with the officer on a regular schedule.
- Completes an officer performance assessment once per semester and shares the information with the officer's supervisor - including discussion of successes and concerns.

- Monitors the officer's activity logs to ensure progress is made toward achieving program requirements.
- Attends the School Safety Program administrator training on an annual basis. This requirement applies specifically to the principal when a principal is new to the grant or new to a school with the grant. After attending the training once, the principal may send a designee to the training in subsequent years provided the designee is integrally involved with the grant.
- Develops a collaborative relationship with the officer while allowing the officer to function independently. The officer serves as a resource to the students and staff.
- Understands and agrees will all program guidelines.
- Participates in the selection process of their officer.
- Provides for the annual evaluation of the School Safety Program by staff, students and parents.

#### Teacher

- Supports and communicates information about the School Safety Program in their classrooms to students and parents.

- Teams with the officer in planning and delivery of law-related education units in their classroom. A teacher must be present in the classroom at all times during LRE instruction.
- Cooperates in the annual evaluation of the School Safety Program by students and parents.

*Officers may only serve the site(s) specified on the award letter. The officer should only assist at a school that is not on the program if a crisis occurs. Spreading the officer among schools weakens the program, as the officer does not have the time to build the relationship with the students needed for an effective program. An officer providing services at a school not authorized by the School Safety Oversight Committee may result in a loss of the grant.*

*It may be necessary to request the assistance of the SRO/JPO e.g. a community situation/problem, traffic accident. When the officer is off campus, on business that does not pertain to the school, those hours should be prorated and not paid for by the school. The invoice from the department should reflect only hours the officer actually was involved in school business.*

- Follows the best practices of LRE. Refer to page 27.
- Keeps a weekly activity log that tracks LRE instruction hours, teacher and subject, the topic of each LRE lesson, and the time the officer is off their assigned campus during their duty hours, regardless of the reason.

### 3. POSITIVE ROLE MODEL

As a positive role model for students and the school community, the JPO should:

- Set limits by being clear about what is acceptable and what is not; letting students know the consequences of unacceptable behavior and the rewards of acceptable behavior.
- Set an example by modeling how to handle stress, resolve conflicts, celebrate successes, and how to be a friend.

## SCHOOL SAFETY AND ASSESSMENT TEAM

The formation and implementation of a School Safety and Assessment Team is a requirement of the School Safety Program. The purpose of this team is to conduct a **safety needs assessment**, to use the needs assessment in determining the use of the officer consistent with program requirements, and to coordinate efforts of this program with other safety and drug/violence prevention programs and activities at the school to achieve greater effectiveness. A team may be formed specifically to meet this requirement, or an existing appropriate team may be utilized.

A needs assessment is the collection and analysis of relevant and valid data to determine areas of need related to safety. The following data should be considered by the team:

- School safety and disciplinary data, including incidents collected on the Safe and Drug-Free Schools Report. This information is most useful when assessed by location on campus, at off campus school events, or on the way to and from school and by time of day.
- Student data reflecting behavior or perceptions of safety at school, from surveys such as the Arizona Youth Survey or the Youth Risk Behavior Survey, or a sound survey with valid data developed by the school or district
- Staff data reflecting perceptions of school climate
- Crime data for the community

The team membership must consist of:

- School principal or assistant principal
- School Safety Program officer
- School prevention coordinator or school mental/behavioral health expert, if a position exists
- Other members as needed

Other members recommended for inclusion on the team are:

- District prevention coordinator (coordinator of the Safe and Drug-Free Schools Program)
- District transportation representative
- Teacher representative
- Parent representative

The team must meet a minimum of quarterly; monthly meetings are recommended.

## LAW - RELATED EDUCATION INSTRUCTION

Each officer must complete at least 180 hours of (LRE) instruction per year. The development and implementation of LRE must be based on a needs assessment. The 180 hour LRE instruction requirement must include:

- At least 80 hours of LRE classroom instruction to ongoing cohort groups of students
  - Three to five classrooms, six sessions per classroom within one quarter to the same group of students
- At least 100 hours of universal LRE instruction
  - 60 hours or more of universal LRE classroom instruction
  - Up to 20 hours for LRE planning and preparation
  - Up to 20 hours for LRE instruction to school staff and school community

**Cohort LRE:** is the delivery of LRE classroom instruction on a pre-identified 'target problem' to a pre-identified 'target population' over a period of time. Cohort LRE must be comprised of six hours of instruction (6 lessons) to the same group of students within one quarter. Delivery of comprehensive LRE classroom instruction to an ongoing cohort group of students can increase students' negative perception of delinquent behavior and improve their problem solving, decision making, and communication skills.

**Universal LRE:** is the delivery of LRE instruction to the general school community to build awareness and knowledge of a particular subject. Officers may utilize up to 20 hours of this requirement for planning and preparing LRE lesson plans for either group. In addition, up to 20 hours may be used to deliver LRE instruction to school staff and the school community (e.g. parents, PTA/PTO) on a particular subject that is relevant to the schools violence and delinquency prevention needs.

**Classroom instruction:** The LRE classroom instruction component should be completed during the school day's regular scheduled instruction periods. However, the building administrator has the discretion to approve the use of time spent before or after school on structured law-related instructional activities.

**SCHOOL SAFETY PROGRAM OPERATIONAL PLAN  
INSTRUCTIONS AND EXAMPLES**

Use this template to develop the School Safety Program Operational Plan. Each site is required to develop a School Safety Program Operational Plan that will illustrate each site's program design in a succinct and logical manner. Delineate specific activities or milestones, who is responsible, and projected timelines. The Operational Plan must be revised as needed throughout the year and be used by school administration to monitor program implementation.

## OFFICER TRAINING

### New Officer Training

All officers new to the School Safety Program are required to attend a 40 hour (1 week) workshop which covers community oriented policing, the role of school based officers, and an introduction to Law Related Education (LRE). This workshop, sponsored by the Arizona Department of Education (ADE), meets the School Safety Program LRE training requirement.

### School Safety Program Law-Related Education Training

The Arizona Foundation for Legal Services and Education (AZFLSE) is the contracted training agency for law-related education (LRE). Training in LRE is essential to successfully achieve the LRE teaching requirement. Academies are approved for credit by the Arizona Peace Officers Standards and Training Board (AZPOST) and the Arizona Judicial Council (COJET).

Officers are required to attend an LRE Academy training provided by the AZFLSE, annually. LRE Academy courses address grade level specific topics and programs identified by officers as critical to meeting the learning needs of diverse student populations. Courses are relevant to the needs of schools with topics updated on an annual basis. The School Safety Program provides each officer with travel funds to cover travel expenses for one training per year. Officers receive a curriculum and resource package at each training.

### Additional School Safety Program Training

The ADE provides continuous School Safety related training and professional development opportunities to program participants. Updates will be provided through correspondence from ADE to grant recipients and program partners.

### **WHEN SCHOOL IS NOT IN SESSION: SUMMER BREAK AND INTERSESSION**

The School Safety Grant is awarded for a typical 10 month school year. The site administrator, officer, and police/probation department have the option of extending services for 12 months - when school is not in session. This may include intersession and summer break. Applications should reflect a 10 month salary unless the 11 or 12 month salary is specifically referenced and supported on the application. To maintain the integrity of the program, teachers and students are present on campus during intersession or summer break.

Terms of an 11 or 12 month position shall be established on the application as well as the Service Agreement.

#### Possible Activities

- Plan school security improvements
- Prepare law-related education lessons
- Develop collaborations with community resources, identifying services offered that could benefit students
- Conduct school safety assessments
- Work with the school safety team to review and update the school safety plan, and conduct school wide exercises to test the plan
- Plan in-service training
- Collaborate with school administration to analyze criminal incident reports and disciplinary records to identify patterns and develop strategies to address problems
- Work with community-based and youth recreational and leadership development activities that complement and reinforce the School Safety Program
- Attend training opportunities

## WEEKLY ACTIVITY LOG

Officers must complete a weekly activity log that tracks LRE instruction hours, teacher and subject, the topic of each LRE lesson, and the time the officer is off their assigned campus during their duty hours, regardless of the reason.

The following information is required for grant compliance:

- Total hours of Universal LRE classroom instruction
- Total hours of Cohort LRE classroom instruction
- Teacher name and subject of each class where an LRE lesson is taught
- Time spent per LRE lesson
- Total hours for planning and preparation
- Total hours for staff and school community training
- Total time spent off campus\*

Officers may develop their own log that tracks required items or may use ADE's recommended activity log, which can be downloaded from <http://www.ade.az.gov/sa/health/schoolsafety/>. The activity log shall be shared with the site administrator and supervisor and must be available upon ADE's request. The data from the logs shall be used for reporting to ADE. For form and instruction page, refer to pages B1-33.

*\*Time off campus* is any time the officer is not on school grounds during their duty hours. Off campus time shall include both school and non school related events. Being off campus is not necessarily considered inappropriate - it is understood that there will be activities that constitute an officer being away from school e.g. briefings, picking up police car, mandatory trainings, and field trips.

## THE PERFORMANCE EVALUATION

A biannual performance evaluation shall be conducted by a school administrator and shared with the officer's supervisor. The evaluation is meant to assist the officer and his/her supervisor in meeting the intent of the grant and effectively carrying out their duties. It is not meant to supplant the official evaluation process used by the officer's department or agency. It is at the discretion of the law enforcement agency or probation department to include the school's evaluation in the officer's official folder. Only officers that have performed in a satisfactory manner should be considered for further service in the School Safety Program.

### Recommended Factors to Consider

- Does the officer have a clear sense of his/her role?
- Does the officer understand the operational policies and procedures of the school necessary to perform effectively in the position?
- Has the officer attended or scheduled to take a law-related education class in the current year?
- How does the officer relate to staff, students, and parents?
- Does the officer work well independently?
- Has the officer attempted to meet the requirements of the grant?
- Does the officer perform his/her duties effectively?
- How effective is the officer with classroom presentations?

Refer to sample SRO/JPO Performance Assessment form on page 30.

Informal evaluations that provide the officer and supervisor with feedback regarding the officer's performance should occur frequently.

If a problem occurs, it should first be addressed at the site level between the officer and administration. If a resolution is not reached, the grievance should then move through the process as established by the officer's department and school's policy. The problem should attempt to be resolved at a level nearest the school as possible.

## THE HIRING PROCESS

Selecting the right officer is one of the most important aspects of making the School Safety Program successful. A minimum of a two-year assignment at the same school(s) is recommended. The effectiveness of the officer significantly contributes to the quality of the program.

The selection process should identify officers who are best suited to the work as school resource officer or juvenile probation officer. That officer should be committed to the goals of the School Safety Grant.

Because the School Safety Program is a partnership between the school and law enforcement/probation department, involving the school administration in the selection process is necessary. After the final candidates have been selected by the department/agency, a school administrator becomes a part of the selection. It is important that the school becomes involved because:

- The school administrator brings to the selection the needs of the school.
- The school administrator brings to the selection the type of personality that will work best in a specific school environment.
- The school administrator brings to the selection process insights into what is required to be effective in the school community.
- The correct applicant is more likely to be selected with the school's involvement.
- There is more of a buy-in from the school to successfully integrate the officer into the school community when they have been part of the selection process.
- The school administration brings to the selection process a critical understanding of the School Safety Program.

In situations when only one officer is available for the position, the school still should have the opportunity to review the candidate before the decision is made.

Candidates should meet the minimum qualifications recommended in this guidance to ensure an effective collaboration between the school, officer, and agency. Exceptions may occur. Under mitigating circumstances and with the Arizona Department of Education grant manager's approval, the position may be filled through an alternative option.

## **SERVICE AGREEMENT**

### **Developing the Partnership**

The development of a Service Agreement is mandatory. This essential document is an important step toward implementing a successful School Safety Program. The document shall be completed annually, within 30 days of when the officer begins work at the school. The agreement shall be kept on file at each funded site for review during a site visit conducted by the Arizona Department of Education.

#### **1. Service Agreement (SA)**

The SA is a general term for a contract that is developed jointly and agreed upon by the district/charter, site administrator, and law enforcement or probation department. This written agreement outlines the purpose of the partnership and the fundamental responsibilities of each entity. ## WHAT IS LAW-RELATED EDUCATION?

### What is the Definition of Law-Related Education?

Law-Related Education is the teaching of rules, laws, and the legal system that actively involves students to prepare them for responsible citizenship. It also provides instructions in legal rights, responsibilities, and the role of the citizen and requires students to practice the application of LRE in potential real-life situations. (*Adopted by the Arizona Center for Law-Related Education from the Virginia Institute for Law and Citizenship Studies.*)

### Why Law-Related Education?

Law-Related Education is required as a component of the School Safety Program, because it

- promotes problem-solving skills,
- actively involves students, teachers and the community,
- increases students' knowledge of the law, making them better informed citizens and consumers,
- discourages delinquent behavior,
- promotes positive self-image in students, and
- encourages students to respect rules, laws, and persons in authority when exposed to a "balanced" view of "democratic" society.

Since law-related education (LRE) is being recommended as a violence prevention strategy, then it is important to have some common notion of what law-related education is and what it encompasses. LRE is instruction about rules, laws, and the legal system that actively involves students in the instruction in order to prepare them for responsible citizenship. (Definition developed by the Virginia Institute for Law and Citizenship Studies) It is instruction that teaches the legal rights, responsibilities, and role of the citizen. Students practice application of that teaching to potential real-life situations.

The approach consists of high-interest content and interactive instructional strategies. This type of instruction provides students at all levels the following opportunities:

- to explore and reflect on theirs and others' perspectives,
- to express and defend their views, to listen to the views of others,
- to develop arguments for both sides of an issue, to mediate, and
- to formulate decisions and resolutions based on multiple and often conflicting concerns.

In primary grades, students might consider a rule they don't like, explore why it was made, examine the consequence for breaking it, and discover who acts as judge when the rule is broken. They might evaluate existing or hypothetical rules to determine whether or not they are clear, consistent, fair, and enforceable. They could listen to and analyze rules issues in stories and they could create and enforce their own set of classroom rules.

Intermediate students might role play a law officer encountering a criminal dilemma. They might work in cooperative groups to offer solutions to problems that arise when a law is too general or vague. Older students might use the case study method of analysis to examine legal conflicts throughout history. Information from this exercise could then apply this information to current dilemmas. Simulations of trials, known as mock trials or moot court, legislative hearings, constitutional conventions, police procedures, role playing, conflict resolution, mediation, formal and informal debate, cooperative group problem-solving, outside speakers, from the legal community typify LRE classes at all levels.

Since rules and laws affect all aspects of life, all subject areas, and all ages, the content of LRE can be as varied as the students and teacher need it to be. The methods, however, are characteristically open-ended and participatory in nature. Although some LRE instructional materials have been written for specific topics or age groups, there is no one way to teach LRE and no set LRE curriculum

As previously described, LRE offers application possibilities at all grade levels, as well as in many subject areas. It is most commonly used in social studies to promote civic understanding; however, it regularly incorporates the use of reading, writing, and speaking skills. It has the potential for application in literature, math, science, technology, foreign language, physical education, sports, and other subject areas. It need not be limited to a particular grade, subject, or time frame. The LRE approach to instruction is flexible enough to be applied as a system-wide, on-going prevention strategy, and an added benefit of such a strategy is the increased likelihood that students will better understand the rules, laws, and legal processes that govern their lives.

One of the cornerstones of LRE is the use of an outside resource: school safety officers, attorneys, and other legal professionals. These resource people visit classrooms regularly, provide insight into how and why the system operates the way it does, and develops on-going positive, non-adversarial relationships with students in the class. Though typically not individualized as in mentoring, these relationships often hold meaning for the students and provide an opportunity for them to develop bonds or attachment with representatives of "the system".

Another feature of LRE is its relevance. It deals with issues that are meaningful to students and their views are valued. LRE provides students the opportunity to get involve and participate. The crux of LRE is problem solving, both as apart of a group process and on an individual basis. Social conflict lies at the heart of legal issues. Therefore, all LRE is some form of conflict resolution or problem-solving. The regular inclusion of LRE- in the course of instruction will provide steady opportunities to develop and practice the information processing steps that must be developed in aggressive students if they are to acquire non-aggressive social problem solving skills. Further, the conflicts that characteristically surround rules and laws offer good practice in content which is hypothetical in nature yet directly related to students' lives. (See figure 1)

While not a panacea for violence prevention, LRE offers a promising strategy for schools to implement as part of their overall prevention plan. If that plan includes closer work with parents and the community, LRE might also be incorporated into after-school programs, community center programs for children and adolescents, and parent programs. In this way the approach lends itself to a close interface with home and community.

**BEST PRACTICES:  
GUIDELINES FOR EFFECTIVE  
LAW RELATED EDUCATION**

- 1. Sessions should utilize law-related content**
  - Civil, criminal, and constitutional themes
  - Practical information about the law and public policy
  - Concepts underlying a constitutional democracy
  - Student rights and responsibilities
  - Choices and legal consequences (not moral consequences)
  - Citizenship
  - Use of Power and authority
  - Justice
  - Liberty
  - Civil Rights
  - Equality
  - Illegal Drug Use
  - Drinking and Driving
  
- 2. Law-related education provides practice for skill development**
  - Critical Thinking
  - Decision-Making
  - Problem Solving
  - Communication
  - Cooperation & Participation
  - Managing conflict
  - Reasoning
  
- 3. Instructors present multiple points of view or perspective**
  - Balanced view of the judicial system & other aspects of the political system
  - Controversial issues should be discussed often to motivate student interest and broaden understanding and tolerance
  - Allow for a safe voicing of viewpoints
  - Debate and free flow of ideas are crucial elements of effective civic participation
  - Many times there is no one correct answer
  
- 4. A sufficient quantity of instruction is provided**
  - Students should have ample opportunities to practice skills and gain confidence in defending their points of view, making presentations, etc...
  - Look for opportunities for classroom teachers to continue teaching LRE
  - Connect your involvement in the classroom to larger learning goals
  - Try to avoid making your involvement in isolated areas (ex: LRE can be taught not only in Social Studies or Government, but in Health, English, Math, etc...)
  - Seek opportunities to teach many sessions with one class (minimally, a semester long)
  
- 5. Interactive teaching strategies**
  - Strategies that foster true student-to-student interaction (are the heart of the session)
    - Role Plays
    - Simulations (Mock Trials, Moot Courts, model legislatures)
    - Group Work Activities

- Group Research Projects
  - Community-based learning (including service learning, lobbying, mentoring)
  - Sharing outcomes with students
  - Drawing on their existing knowledge
  - Giving them appropriate time to answer questions
  - Involving as many students as possible in all aspects of the class
6. **Opportunities for students to interact with Community Resource People (CRP)**
- CRPs offer expertise in areas that you are less familiar with, connects you to new community resources and ensure that your learning time is dynamic and continually fresh
  - The community resource person is well prepared and integrated into the interactive session
  - Content presented by the CRP is part of the course content
  - Allow students sufficient contact with community resource people in order to bond
  - Bonding takes place when students develop positive relationships with an adult
  - Research in LRE indicates that this adult-student bonding is a key to overcoming risk factors
  - SROs and POs are a built in CRP
7. **Administrators are actively involved in providing needed support**
- Officers should feel that the school director and education officials support their endeavors
  - The administrators must be able to address questions raised by family members, other teachers or the community about Law-Related Education
  - Involvement of the administrators also can serve to reduce the gap between school policies, rules and ideas about justice that may be generated by a class
  - Remember that your role is to link to standards and topics covered in a given discipline, not to create a whole new topic
  - Draw support from administrators and department heads
  - Inform the school community about the valuable resources you can provide
  - Solicit feedback on how you can be an asset in the classroom
8. **Networks to support teacher/officer innovation are available through joint planning sessions, training sessions and social events**
- Strengthens teacher/officer commitments to use interactive methods and practical legal information
  - The involvement of more than one teacher from a site in trainings, helps enhance law-related education
  - Invite teachers to LRE trainings
  - Keep them abreast of law-related materials you receive
  - Alert them to special security concerns at school
