Concerns were expressed that the intent of the RPP were not being met in single family neighborhoods, especially those with multi-family dwellings. Commissioner Ellison moved that the Neighborhood Advisory Commission forward the following change to the Residential Permit Parking Program to city staff and Mayor and Council:

The purpose and effect of The RESIDENTIAL PERMIT PARKING PROGRAM is to reduce and restrict parking on the streets where parking is allowed.

Only single family homes will be considered for up to 2 parking permits. Additional permits would be available for purchase by resident family members (Z &D 2-107;3-102;and 7-107) for additional vehicles.

Permits would be matched with residents residing in the single family homes by vehicle and rental or lease agreement.

There was discussion about the purpose and intent of the program having originated as a result of ASU resident and non-resident parking. It was stated in the policy document that "The specific parking regulations for an area (hours and days of enforcement, special conditions, etc.) will be established to most clearly reflect the wishes of the residents who are being served." The policy document was seen as conflicting in that it referenced the Tempe Z &D Code section 2-107:3-102 and 7-107.

A motion was made and seconded and voted unanimously in favor of recommending a change to the policy as follows:

The purpose and effect of The RESIDENTIAL PERMIT PARKING PROGRAM is to reduce and restrict parking on the streets where parking is allowed.

Only single family homes will be considered for up to 2 parking permits. Additional permits would be available for purchase by resident family members (Z &D 2-107;3-102;and 7-107) for additional vehicles.
